When you install Millboard decking, it's not just a beautiful outdoor space you are investing in, you are also investing in a low carbon material. Millboard is focused on continued sustainability and we have become the first premium outdoor flooring company in the world to have our carbon footprint independently verified.

We set out to replicate the beauty of wood and natural timber without all the flaws of a natural product and by doing so, we have produced a premium wood-free outdoor flooring board which is manufactured using the least amount of energy and carbon possible - leaving wood where it should be, growing gracefully in the ground just as nature intended.

For full details of our carbon credentials please visit [millboard.co.uk/our-vision](https://millboard.co.uk/our-vision)
